

The "Mecanic Vallée" Association of manufacturers federates an interregional wirework of prime manufacturers and subcontractors in the mechanical field, on 3 majors subjects : aeronautics, spare parts for automotive, and machines tools.

This dynamics of network enabled the increase of 30% of local employment since 10 years and at the same time the increase of the productivity of its members, at a rate level further than national rate.

Its geographical area

- ✚ On 2 areas and 3 French departments ("Lot", "Aveyron", and "Corrèze")
- ✚ More than 260 companies and 16.000 employment
- ✚ 3 main industries : automobile, aeronautics, machine-tools.
- ✚ A structural gait for "majors" companies which integrates the smaller ones
